Dear Hiring Manager,

I am writing to express my interest in the Web Design position at ZF Engineering Plzeň s.r.o., as advertised. With a strong foundation in web design, bolstered by practical experience gained through high school internships and part-time work, I am eager to contribute to your team and help elevate your projects to new heights.

I completed my studies in INFIS high school, where I gained valuable insights into the principles of user interface design, responsive web development, and best practices in coding languages such as HTML, CSS, JavaScript, and JavaScript library – ReactJS. During my time in school, I completed two high school internships that provided me with hands-on experience in translating client requirements into visually stunning and functional websites. My results at school were exceptionally good.

Additionally, I had the opportunity to work as a part-time worker at local soccer club TJ Sokol Mladotice. This experience honed my ability to work under pressure, manage competing priorities, and communicate effectively within a team environment.

What sets me apart is my passion for creating exceptional user experiences and my dedication to continuously expanding my skills and knowledge in the ever-evolving field of web design. I am proficient in industry-standard design tools such as Adobe Creative Suite and have a solid understanding of content management systems such as WordPress.

Thank you for considering my application. I am enthusiastic about the possibility of joining ZF Engineering Plzeň s.r.o. and am eager to discuss how my background and experiences align with your needs.

Yours faithfully,

Daniel Hajžman
